QUALIFIED AND STRUCTURED TRAINING

Pixelmetrix Professional Services offers a range of training programs for DVStation. In addition, specialized training courses tailored to your specific needs are also available.

Training is conducted by our DVStation experts who have strong technical and teaching skills.

Sharpening skills during this era of rapid technology changes has never been more important. Whether the basic, advanced, stand-alone or automated, let us help you maximize monitoring efficiency today.

We pride ourselves in providing comprehensive support to maximize the effectiveness of monitoring within your overall operations.

COURSE DESCRIPTIONS

Pixelmetrix Professional Services offers three packaged training courses for you:

- Introduction to DVStation
- Getting the most out of DVStation
- Integrating DVStation

COURSE: INTRODUCTION TO DVSTATION

This is a one-day course consisting of:

- Basic Introduction to MPEG-2
- High level description of DVStation hardware and software architecture
- Key features and functions of DVStation
- Hands-on use of DVStation

COURSE: GETTING THE MOST OUT OF DVSTATION

This is a two-day course demonstrating the advanced features and capabilities of DVStation.

The course includes:

- Advance features of DVStation
- Configuring DVStation
- Remote Operational Monitoring
- Using DVStation for SLA monitoring
- Basic introduction to setting up alerts
- DVStation clock and time synchronization
- Using DVStation for external RS-232 triggering

COURSE: INTEGRATING DVSTATION

This is a two-day course to teach developers to understand and use the DVStation Software Architecture to integrate with other applications or systems.
The course includes:

- Technical Overview of DVStation hardware and software architecture
- Introduction to SNMP and the DVStation MIB
- Hands-on sample to integrate DVStation to an SNMP based NMS
- Overview of CORBA
- CORBA facilities within DVStation
- Using Interface Definition Files
- Sample application framework with CORBA

TAILORED TRAINING COURSES

Specialized training programs or courses can be arranged to meet your needs. All attendees are also provided with a certificate to certify their knowledge and skills attained.
